

## ABSTRACT PREPARATION FORM

You may use this form to prepare your abstract then copy/paste into the AAS abstract submission site.

**Abstract Title** (not to exceed 10 words)

### Structured Abstract

Limit the abstract to 500 words. Do not cite references in the abstract. Limit the use of abbreviations and acronyms. Use the following subheads:

**OBJECTIVES.** State the objective or question addressed by the research. Any hypothesis should also be stated.

**DESIGN.** Describe the basic experimental design of the study. The number of subjects and how they were selected should be provided.

**RESULTS.** State the main results of the study.

**CONCLUSIONS.** State the conclusions of the study that are directly supported by the data, along with the clinical implications or applicability.

Provide a brief biographical sketch of the presenting author, not to exceed 100 words.

### **Learner Outcomes**

List as many as are practical for the length of the presentation.

*Learner outcomes should complete the following sentence:*

*"After this presentation, participants will be able to..." To complete this sentence, follow with a measurable action verb such as: describe, demonstrate, solve, identify, compare, contrast, evaluate, prepare, summarize, and write. Verbs to avoid: know, understand, learn, comprehend, and believe.*
